<p>2. Citations and explanations (Rule 70.7)</p> <p>Reference is made to the following documents:</p> <p>D1: IT-B-1 249 219 D2: DE-A-196 32 427</p> <p>1. The application fails to meet the requirements of PCT Article 33(1) because the subject matter of claim 1 is not novel (PCT Article 33(2)). The reasons for this are as follows:</p> <p>Document D1 discloses (see page 6, line 16 to page 8, line 15; page 9, line 23 to page 10, line 18; figures 9, 10 and 11) a hinge device with a lever (1) which has two heads (4, 5) pivotably connected about their respective axes to respective ends of the lever (1) to allow mounting of the lever, and provided with two elements (16, 20), each of which can turn about an axis of rotation with its movement coupled to the pivoting movement of the associated head (4, 5), and two tension members (15) which engage the two elements at engagement points on different sides of a plane in which both axes of rotation lie.</p> <p>The subject matter of claim 1 is also known from document</p>

Box No. V	Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement
<p>D2 (see column 3, lines 8 to 38; column 9, lines 44 to 57, claims 1 and 11; figures 1, 19 and 20).</p> <p>2. The application also fails to meet the requirements of PCT Article 33(1) because the subject matter of claim 1 does not involve an inventive step (PCT Article 33(3)). The hinge devices in documents D1 and D2 solve the same problem as the present invention (see D1, page 2, line 9 to page 3, line 20; and D2, column 1, lines 20 to 61).</p> <p>3. Dependent claims 2 to 29 do not contain any features that meet the PCT requirements in respect of novelty or inventive step when combined with the features of any of the back-referenced claims. The reasons for this are as follows:</p> <p>3.1 The subject matter of claims 2 to 8, 11 and 12 is known from D1 (page 9, line 23 to page 10, line 18, and figures 9, 10 and 11) and D2 (column 9, lines 44 to 57; claims 1 and 11; figures 1, 19 and 20). The subject matter of claims 2 to 8, 11 and 12 therefore lacks novelty (PCT Article 33(2)).</p> <p>3.2 The subject matter of claims 9 and 10 cannot be considered inventive (PCT Article 33(3)). Using a gear set or planetary gearing is just one of a number of obvious possibilities from which a person skilled in the art would choose according to the circumstances without making an inventive contribution in order to achieve different transmission ratios and thereby minimise the forces according to requirements.</p> <p>3.3 The subject matter of claims 13 to 17 is known from D1</p>

Box No. V	Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement
<p>(page 4, line 13 to page 5, line 5, and figures 9, 10 and 11) and D2 (column 9, lines 44 to 57; claims 1 and 11; figures 1, 19 and 20). The subject matter of claims 13 to 17 therefore lacks novelty (PCT Article 33(2)).</p> <p>3.4 The subject matter of claim 18 is known from D1 (page 4, lines 8 to 9, and claim 2). The subject matter of claim 18 therefore lacks novelty (PCT Article 33(2)).</p> <p>3.5 The solution proposed in claims 19 to 22 cannot be considered inventive (PCT Article 33(3)). The problem addressed by the features of claims 19 to 22 can be seen as that of designing a hinge device that does not take up a large amount of space.</p> <p>The features of claims 19 to 22 are nothing more than ordinary design features which a person skilled in the art would choose according to the circumstances in order to solve the problem of interest (see also D1, page 10, line 19 to page 13, line 21, and figures 12 and 13; and D2, column 3, lines 59 to 63; column 9, line 58 to column 10, line 10, and figures 1, 2, 7 and 21).</p> <p>3.6 The subject matter of claims 23 to 29 is known from D1 (page 2, lines 9 to 14; page 6, line 17 to page 8, line 15, and figures 1 to 5) and D2 (column 1, lines 3 to 7; column 3, lines 8 to 38; claim 1; figures 1 and 7). The subject matter of 23 to 29 therefore lacks novelty (PCT Article 33(2)).</p>
